

# Third Party Logistics

A Partner you can trust

Warehousing and Distribution | Pick and Pack | Third Party Logistics |  
E-Commerce | Publication Fulfilment | Print and Studio Production

## Welcome to TIFS

When outsourcing to a 3PL (Third Party Logistics) supplier you need confidence that you partner with a reliable and experienced company whose service levels will present your business to your customers in the best possible light.

You need to ensure you find a 3PL who will free you up from the mundane daily tasks of stock management and order processing; who can meet the demand of your peaks and most of all, reduce your overheads and add real value to your bottom line profits.

At TIFS we have been providing exactly that quality of reliable 3PL service for over 30 years; our Warehousing and Distribution facilities are second to none and we pick, pack and distribute in the vicinity of 20-million items a year for over 350 businesses.

Our success is driven by an in-depth knowledge of Warehousing, Fulfillment and Distribution processes, with our senior management having continuous involvement in Third Party Logistics for over 30 years'.

"You focus on marketing and expansion.

We focus on servicing your customers with

efficiency and savings."

## Warehousing and Distribution

### Professional Staff and Key Location

Our professional warehouse staff control all aspects of the operation and our senior managers are onsite, all day, every day. So you always have direct access to decision makers.

Located in close proximity to major freight carrier hubs, our warehouse and distribution centre encompasses 15,000sqm of high clearance space. Your stock is secured via our 'back to base' alarm system and your inventory is monitored in real-time by our warehouse management system.

### Multi-Piece Picking

In contrast to most Third Party Logistics we specialise in the area of 'Individual Piece Picking', 'Component Assembly' and 'Kitting'. We plan processes according to your specific instructions.

### Warehouse Management Systems

Our proprietary warehouse management system keeps track of all stock movements and dictates the most time efficient picking method for each order. It also automatically chooses the most cost effective means of transport to get your parcel delivered within your specified time frames.

Most importantly, all orders are despatched within 24-hours of receipt, with the vast majority despatched on the same day.

## Third Party Logistics

### Benefits of Outsourcing to TIFS

We can provide an analysis of your operation and tailor the best 3PL solution for your business; saving you on - infrastructure, warehouse rent, staff hiring, workers comp, payroll tax, OHS, equipment, electricity, racking, pallets, forklifts, technology, sourcing delivery services etc.

## Pick and Pack

### Quality Control and Online Tracking

Our streamlined Pick, Pack "Live" systems ensure that all orders are despatch within 24-hours and any orders placed by 12.00pm are pick, packed and despatched the same day.

You can set rules in advance to dictate the most acceptable delivery timing; taking into account the balance between speed and cost. Our system will then automatically choose the most appropriate and cost effective method of delivery for each order.

## E-Commerce Fulfilment

### Fast and Seamless Information Transfer

Our systems can be configured via Electronic Data Interchange (EDI) to accept orders directly from your online shopping cart, then operating efficiently in the background we will have your e-commerce fulfilment processed and delivered before you're even aware the orders have been placed by your customer.

## HACCP and ISO

### Hazard Analysis and Critical Control Points

We are a HACCP certified company, this standard allow us to demonstrate our commitment to a preventative hazard and risk-based food safety management system.

### International Organization for Standardization

Proud to be ISO 9001:2015 certified company, an internationally recognised standard that ensures our services meet the needs of our clients through an effective quality management system.
